TAD PICKS DEMPSEY TO WIN

Noted Cartoonist-Writer Expects Him to Be Victorious Inside of Six Rounds

By TAD.
Toledo, O., July 3.—The editor has asked me to pick a winner in the big fight and tell the eyes-tomorrow who I picked him.

Well, I'll write as though I were writing to my betting companion, Joe Smullen. Here goes:

Dear Joe: But the old hand on Dempsey. We may be wrong, but the dog points the other way. No heavyweight champion that ever lived was a fighter after he passed the thirty-year-old mark.

Fulton was thirty-four when he lost to Corbett, and Corbett was thirty-seven when he lost to Willard.

Can't beat father time.

How are you going to beat Old Father Time? A fighter has his time to live the same as a racehorse or a buck deer—just as far as he will.

Willard, if he wins, will break all records. He may win. He is in good shape. He is a home boy and has taken good care of himself.

Demsey is young, though. He is full of speed. He wants to be a champion. He was never in better shape. He is a bulldog. He just

Mrs. Skeels Declares Her Innocence in Dramatic Plea

Lawrence, July 3.—Mrs. Bessie May (Skeels) Lundgren closed a dramatic appeal in her jury today with this vivid declaration:

"They have ruined my whole life, but, thank God, they have not touched my soul!"

She protested her innocence of the crime charged against her—that of having murdered Miss Florence W. Gay, the Abbott Academy teacher by poison, she asserted that she never gave Miss Gay or her own brother, Albert Wilkins, any medicine that had not been medically prescribed.

The case is now in the hands of the jury.

Healthful illness prevailed when Mrs. Lundgren began her final plea for life and liberty.

The "Sunshine Nurse" was moved to a position opposite the jury. In fact, she took the oath and the jury.

Your Honor and gentlemen of the jury, I want to say that I never date

RAIDED FEDERAL AGENTS

Bombs for Celebration of the
Fourth, Walpole Inventor
Tells Police

Nineteen bombs seized at the home of Howard Davis, twenty-two, of East Walpole, were taken in charge today by George E. Kellier, head of the Bureau of Investigation of the Department of Justice.

According to United States Inspector Daniel P. O'Rourke, the bombs are of high explosive quality and are of the same type as that with which an attempt was made some weeks ago to blow up the home of Judge Albert J. Hayden in Boston.

The bombs were packages, filled with black powder and with a fuse attached. Each is placed in both ends. Some of the fuses are from five to six inches in length and four inches in diameter. The remaining four inches or three inches long and two inches in diameter.

Davis, who is an employee of that firm, had some of the bombs, he said, according to the East Walpole police, that he made the bombs, but he claims they are not highly dangerous.

He said he made the application for use in the fourth of July celebration.

Following examination of the bombs and the investigation of Davis' story, he was formally placed under arrest. Davis, a volunteer member of the fire department of East Walpole, and says that he was the powder taken from Boston after receiving a permit to do so from District Chief McManus of this city. He told the police, according to Chief Thomas P. Leonard who spoke the words, that his sixteen-year-old brother, Leo, aided him in making the bombs.

The seizure of the bombs was due to a "tip" received by the East Walpole police from neighbors of the Davises, who are of the opinion that they are in a home in the rear of the Davis home on Street.

Hang 58 at Budapest As "Lenine Boys" Go on Warpath

Vienna, July 3.—Fifty-eight persons were hanged at dawn today at Budapest for their alleged participation in the recent Hungarian counter-revolution. Hundreds are in prison, at Budapest awaiting sentence.

The allied military mission in Vienna has received word that the "Lenine Boys," a band of young Bolsheviks, are again on the warpath at Budapest.

They are in a position to attack the city with a Russian hand. He is quoted as saying:

"The uprising must be choked with blood. Now is the time for the supreme test. The eyes of the whole world are upon us and the dictatorship must be maintained."

More than 150 aviation men went on duty three this morning to greet the first lighter-than-air vessel to reach the coast of Newfoundland tomorrow morning. She is due to arrive at Miramichi, N. B., Saturday morning.

The big ship maintained an even speed of about 31 miles an hour in the night. She was heading almost directly westward, with just enough of a southerly deviation to bring her over St. John's.

ANNOUNCEMENT BY LLOYD GEORGE

London, July 3.—Premier David Lloyd George this afternoon laid the text of the German peace treaty before the House of Commons and announced that the ex-Kaiser would be tried soon before an international tribunal sitting in London.

At the same time he made the first official announcement in Commons that the United States and England had pledged themselves to go to the immediate aid of France if France was made the object of an unprovoked act of aggression by Germany.

The Anglo-French defensive pact, with a copy of the Franco-American pact attached, was submitted to Commons with the text of the general treaty signed at Versailles last Saturday.

The terms which had been generally known in advance of their receipt by the House of Commons occasioned no surprise here.

In addition to the Kaiser, all other persons supposedly responsible for the war will be brought to trial before the international tribunal, the Prime Minister added.

His announcement will be a death blow to the German element which had hoped the allies would accept the terms of the peace treaty.

BELIEVE DEATH OF SEXTON DUE TO ACCIDENT

Strengthened by Discolorations on Stone Wall

Brookline, July 3.—With the discovery today of discolorations, believed to be bloodstains, on a stone wall at the rear of his home, Brookline police are inclined to believe that the death of Albert W. Raymond, former sexton of St. Paul's Episcopal Church, was due to an accident.

The police theory is that Raymond, leaving his house by the rear door, fell down a ten-step stairway, his head striking a stone wall three feet from the foot of the stairway. Discolorations were found on the wall at this point and similar stains were discovered on a handrail on the steps. The police believe that the stains on the wall are the blood of Raymond.

High Temperatures July 3, 1919

BETWEEN the temperature of the surface of the sun, estimated at 4000 degrees Centigrade, and absolute zero, estimated at minus 273 degrees Centigrade, little has been discovered. The latest research has been made by the method of measuring the resistance of a filament of liquid metal to the flow of an electric current. The filament is heated from below by a powerful electric current, and the resistance is measured by a sensitive galvanometer.

CHAPTER CXXXVII—CONCLUSION

Grease Spots on Wallpaper

TO remove grease spots from wallpaper, put powdered French chalk, wetted with cold water, over the places, and let it remain for twelve hours. When you brush off the chalk, if the grease spots have not disappeared, put on more chalk, place a piece of coarse brown paper or blotting paper on top, and press for a few minutes with a warm iron.

Nervous Is Hopeful

The New York

Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:

"The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years."—Philadelphia Bulletin.

Children Cry For

Fletcher's
CASTORIA

Bringing Up Baby.

When Adam ate the Apple we heard nothing about its effect on his stomach, but we do know, or ought to know, about the effect of all eatables given our children. This knowledge is necessary to all mothers, and the deaths among infants indicate that much information along this line is needed.

On this subject many works have been published, but most of them so technical and complicated as to be unintelligible to the lay mind. Food, hygiene and proper clothing must be learned by all mothers—they must study them, know them. Do you?

Around every bottle of Fletcher's Castoria is a booklet in plain, everyday language that all can understand, put there by the advice and approval of physicians. Will you read it?

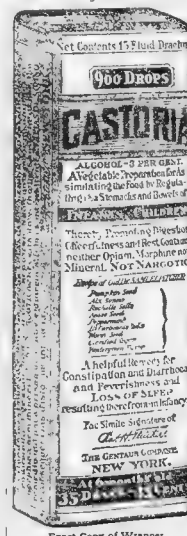

Fletcher's Castoria has been in use so many years that it is a waste of words to praise it, but because of the many substitutes and imitations we endeavor to protect the babies by keeping before the public the signature of Chas. H. Fletcher and a copy of the wrapper. It is your only safeguard.
